

### Specifications / Statement of Work (SOW)

This procurement is for the continuation of additional fiber optic infrastructure to be installed at the Propulsion Systems Laboratory at Glenn Research Center required for an upcoming test for the Spring '25. We currently have installed the vendor's hardware with proven reliability and are continuing with the vendor's product line for the next phase of the installation. The items to be ordered are Commercially Off - The Shelf (COT's) items. I will be attaching one quote.

Specifications:

Quantity	Manufacturer	Part #	Description
